Advanced Course in Minimally Invasive Thoracic Surgery

thoraxchannel.org.mx/camit2025

Dear Colleagues and Friends,

We are delighted to invite you to the **Advanced Course in Minimally Invasive Thoracic Surgery**, a premier educational event designed for surgeons and medical professionals who are eager to deepen their expertise in the latest thoracic surgical techniques. We have meticulously curated a comprehensive curriculum that covers the most advanced procedures and technologies in minimally invasive thoracic surgery. Our goal is to provide you with hands-on experience, in-depth lectures, and interactive discussions that will enhance your skills and knowledge, empowering you to deliver the highest standard of care to your patients.

We are particularly excited to announce a special collaboration with the **Chest Wall Injury Society (CWIS)**, a renowned organization that has made significant contributions to the field of thoracic surgery. CWIS will provide a specialized module on the management of chest wall injuries, including the latest innovations and best practices. This unique opportunity will allow participants to gain valuable insights and practical skills from leading experts in chest wall surgery.

We encourage you to join us for this exceptional learning experience, where you will have the chance to network with peers, exchange ideas, and explore the future of thoracic surgery. Your participation will not only enhance your professional growth but also contribute to the advancement of minimally invasive techniques in our field.

We look forward to welcoming you to an enriching and inspiring course.

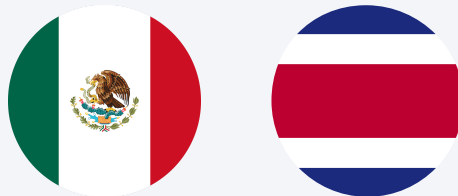

Sincerely,

Dr. Miguel Martínez Arias

Dr. Diego González Rivas

Welcome to the **Advanced Course in Minimally Invasive Thoracic Surgery**. This comprehensive program is thoughtfully designed to provide surgeons and healthcare professionals with cutting-edge techniques and the latest knowledge in thoracic surgery.
